**Encision Inc. Announces 2006 Tradeshow Calendar**

**Boulder, Colorado** – Encision Incorporated, the creator of an innovative surgical technology for minimally-invasive electrosurgery, called active electrode monitoring (AEM) announced today its 2006 tradeshow calendar.

Academic Surgical Congress (ASC)	- February 7-11, 2006 - San Diego, California
Association of periOperative Registered Nurses (AORN)	- March 19-23, 2006 - Washington, D.C.
National Patient Safety Congress (NPS)	- May 10-12, 2006 - San Francisco, California.
American College of Surgeons (ACS)	- October 8-12, 2006 - Chicago, Illinois.
American Society for Health Care Risk Management (ASHRM)	- October 29-31, 2006 - San Diego, California.
Clinical Congress for Gynecological Laparoendoscopists (AAGL)	- November 5-9, 2006 - Las Vegas, Nevada.
Joint Commission's National Conference on Quality and	- November 16-18, 2006 - Chicago, Illinois. Safety for Health Care (NCQSHC )

“Our goal is to get out in 2006 and to educate doctors and patients on the dangers associated with electrosurgery and to show them how AEM® increases patient safety by eliminating stray energy burns during laparoscopy,” said Jack Serino, CEO of Encision. “All groups surrounding laparoscopy, including surgeons, nurses, biomedical engineers, risk managers, and insurers, support the use of active electrode monitoring. The Association of periOperative Nurses (AORN) recently recognized active electrode monitoring as a "Recommended Practice for Endoscopic Minimally Invasive Surgery.”

**About Encision Inc. and AEM® technology**

Encision Inc. (AMEX: ECI), based in Boulder, CO, revolutionized minimally invasive surgery by pioneering the development of patented AEM® laparoscopic instruments. AEM® instruments improve electrosurgery and eliminate the chance for patient injury due to stray electrosurgical burns in laparoscopic surgery. For more information on Encision and AEM® technology, call 1-800-998-0986 or visit [www.encision.com](http://www.encision.com).

For interviews with Encision executives, lists of hospitals in your area using AEM or high resolution photos, please call Sheila Whitman at 303-665-4200 or email [sheila@ctapr.com](mailto:sheila@ctapr.com).
